Category	Description	Services / Subsystems	Dependencies
Infrastructure	Set of services that provide the Service Framework. Every service complies with the service framework.	Container Registry Monitor Session	
Common	Used by all other services for all common application logic.	Message Security Log Cache	Common
Base	Base level independent Services.	HyperCube Inventory Notify	Common
BIN	Set of services that provide BIN (Business Information Network) framework.	BIN Runtime BIN Management BIN Admin BIN Publisher	Common
Application	Application-level Services that uses Base Services. Modular services that do not directly address business requirements.	Metrics Model Alert Assembly Analytics	Common Base
Business	Set of services that address business requirements. Uses other services to provide integrated functionalities.	Threshold Monitor Alert Notify	Common Base BIN Application Business
Presentation	Services that manage and render dashboards.	Presentation Runtime Presentation Management	Common BIN Base Application Business
Designer	Provides Framework for CXO Studio.	Dashboard Designer Network Builder Metrics Modeler User Manger Alerts Manger	Common BIN Base Application Business
